Experience

IT Head, SVAR INDIA

Lucknow, India

February 2025 – Present

- Led IT operations, web development, **hosting, domain & DNS configuration, SSL implementation**, and digital infrastructure for organization.
- Provided dedicated IT and web development support for Outshine Global Services as part of assigned organizational responsibilities, contributing to recruitment platform development and CRM integration.
- Handled manual testing across ST/SIT/UAT stages**, validating new features and business workflows, performing regression and smoke testing, identifying defects, and verifying fixes before deployment.

Web Developer, Codesbizz Information Technology Pvt. Ltd.

Lucknow, India

April 2024 – February 2025

- Developed responsive and database-driven web applications using PHP, MySQL, React.js, and modern web technologies.
- Implemented new features, optimized performance, and collaborated with cross-functional teams to deliver scalable web solutions.
- Executed functional and regression test cases**, performed API testing using Postman, reported and tracked defects, and worked with developers on bug fixing and retesting to ensure application quality.

Projects

Outshine Global Services – (ASP.NET Core MVC • SQL Server • MERN Stack • PHP)

Live: outshineglobalservices.com

- Developed and maintained the company's website, showcasing services, job opportunities, and business information.
- Developed candidate registration, **CRUD-based vacancy management**, and job application workflows with an administrative portal for recruitment operations and feature validation.
- Redeveloping using **ASP.NET Core MVC, Entity Framework Core, and SQL Server**, integrating the website with the internal CRM.
- Contributed to CRM development and testing across **ST/SIT/UAT**, including functional/regression testing, test case validation, defect identification, and fix verification.

Business Websites – (PHP • MySQL • Tailwind CSS)

Live: shivanalytical.com | wktaxadvisory.in

- Developed responsive business websites for clients across analytical services and tax consultancy domains.
- Built service pages, product catalogs, enquiry forms, and SEO-optimized interfaces to improve customer engagement and lead generation.
- Managed deployment, hosting, website maintenance, and performance optimization across multiple production websites.

NGO Web Platforms – (PHP • MySQL • Tailwind CSS)

Live: svarindia.org | yajatfoundation.org | socialbeingfoundation.org | nirmalindia.org

- Developed and maintained multiple NGO websites, with **SVAR INDIA** and **Yajat Foundation** featuring dynamic content management for programs, initiatives, galleries, and impact updates using MySQL.
- Designed responsive websites to showcase organizational activities, CSR initiatives, events, donation campaigns, and public outreach.
- Delivered and maintained additional NGO websites, including **Social Being Foundation**, **Nirmal India**, and other organizational platforms, ensuring performance, SEO, and seamless user experience.

Certificates

- SQL and .NET Training Certification**, Bringing Archer Technologies

February 2024
